List the top five most frequent visit types across all appointments	<p>From the provided data, it appears that all visits were part of one of four different clinical studies, with patients having unique medical record numbers. The visit types included Outpatient Non CRC, Outpatient CRC, Inpatient CRC, and Outpatient visits without specific cancer type (Non CRC). The frequency of each visit type is not explicitly stated in the given data, so we cannot definitively list the top five most frequent visit types across all appointments. However, if we assume that each appointment represents a unique instance, then each visit type would be represented equally once in this dataset</p>	correct
show appointments where visit type is Inpatient CRC for patient E+BWwNROTPMdaUz7rBqjgQ==iDUAJSU+4qmzcLSEGLN+6w==	<p>Based on the provided information, there seems to be a discrepancy between the appointment type specified in your prompt and the one described in the data. The appointment detailed in the provided context is not an Inpatient CRC visit but rather an Outpatient Non-CRC visit. Here are the details of this appointment:</p> <p>1. Appointment Details: This appointment was scheduled for patient 'E+BWwNROTPMdaUz7rBqjgQ==iDUAJSU+4qmzcLSEGLN+6w==' who is participating in the clinical study titled 'Test Study 001'. The visit type is Outpatient Non-CRC, following the template 'Out TA-001 Non CRC'.</p> <ul style="list-style-type: none"> - Date and Time: The appointment was originally 	Correct

	<p>scheduled from December 15, 2019 at 12:00 AM to December 15, 2019 at 01:00 AM.</p> <ul style="list-style-type: none"> - Status: Unfortunately, the patient did not show up for this appointment, causing it to be marked as 'Cancellation' due to 'No Show'. - Additional Information: The patient's medical record number (MRN) is FIN1NjHjLaMYK502i/t9KA==. 	
<p>show appointments in clinical study titled Test Study 001 for patient E+BWwNROTPMdaUz7rBqjgQ== iDUAJSU+4qmzcLSEGLN+6w==</p>	<p>Based on the provided information, here are the descriptions for two appointments related to patient 'E+BWwNROTPMdaUz7rBqjgQ==iDUAJSU+4qmzcLSEGLN+6w==' in different clinical studies:</p> <p>1.
